## Group Basic Information

- GitHub repository: [Link](#)
- Project Board: [Link](#)

Name	GitHub Id	Group Name
Ton That Tu Nguyen	tonthattuit	Headline Grabber

## Individual Reflection

### 1. What you planned to do?

- Increase the unit test coverage
- Implement improvement for application

### 2. What you did not do?

- Initialize the desktop UI for this project.

### 3. What problems you encountered?

- Failed unit test cases because of new implementation.
- Failed unit test cases because of resolve conflicts mistake when merging code changes.

### 4. Issues completed

- [HG32 - Add some unit test for Reu scrapping](#)
- [HG31 - Add display report unit test cases](#)
- [HG38 - Add keywords option](#)

## 5. Files you worked on

- **HG32 - Add some unit test for Reu scrapping**
  - src/headline\_grabber/pipeline\_steps/scrape\_text.py
  - tests/headline\_grabber/pipeline\_steps/scrape\_text\_test.py
  - tests/headline\_grabber/pipeline\_steps/test\_data/reu.html
  - tests/headline\_grabber/pipeline\_steps/test\_data/scrape\_text\_data.py

---
- **HG31 - Add display report unit test cases**
  - src/headline\_grabber/pipeline\_steps/display\_report.py
  - tests/headline\_grabber/pipeline\_steps/display\_report\_test.py
  - tests/headline\_grabber/pipeline\_steps/scrape\_text\_test.py
  - tests/headline\_grabber/pipeline\_steps/test\_data/display\_report\_data.py

---
- **HG38 - Add keywords option**
  - pyproject.toml
  - requirements.txt
  - src/headline\_grabber/main.py
  - src/headline\_grabber/models/user\_preferences.py
  - src/headline\_grabber/pipeline\_steps/scrape\_text.py
  - src/headline\_grabber/validators/click/option\_validator.py

## 6. What you accomplished?

### **HG32 - Add some unit test for Reu scrapping**

- Get back the code for ScrapTextException for fixing the issue of resolve conflict.
- Add Reu test data
- Add Unit tests for Reu

### **HG31 - Add display report unit test cases**

- Update display\_report.py: using static method for some functions
- Add unit test for display\_report.py
- Update some function name for scrap\_text\_test.

### **HG38 - Add keywords option**

- Add new --keywords or -k option
- Update dependency for the application.
